Balance beam – Alphabet
VVZ-BAL001-2-T

VVZ-BAL001-2-T Balance beam – Alphabet

The balance beam is a low-maintenance play element designed to develop balance and movement coordination. The alphabet stepping platforms create a playful route that encourages children to move along the beam while maintaining stability. Playing on the element naturally supports agility, confidence in movement and overall physical fitness, while the alphabet design also adds an educational element to play. The supporting structure is made of hot-dip galvanised steel with a durable surface finish. The anti-slip HPL stepping platforms provide a strong and durable surface, while stainless-steel fasteners contribute to a long service life in outdoor environments.

Specifications

The Balance beam – Alphabet VVZ-BAL001-2-T is certified according to STN EN 1176

Age Group:	3-14 years
Product Dimensions:	2.00 x 0.60 x 0.30 m (L x W x H)
Max. Fall Height:	up to 0.99 m
Safety Surfacing Area:	5.10 x 3.60 m (according to STN EN 1176-1)
Materials:	Galvanised and powder-coated steel, HPL, stainless steel fasteners
Weight:	30 kg
