Spring balance step – Surf
VVZ-BAL005-T

VVZ-BAL005-T Spring balance step – Surf

The spring balance step is a low-maintenance play element designed to develop balance, movement coordination and overall physical fitness. The spring-mounted stepping platform creates a dynamic balancing challenge that requires the user to continuously respond to the movement of the element and maintain stability. The activity naturally supports agility, coordination and strengthening of the lower limbs and core muscles. The spring is made of hot-dip galvanised steel with a durable powder-coated finish. The HPL stepping platform provides a strong and durable surface, while stainless-steel fasteners contribute to a long service life in outdoor environments.

Specifications

The Spring balance step – Surf VVZ-BAL005-T is certified according to STN EN 1176

Age Group:	3-14 years
Product Dimensions:	0.60 x 0.40 x 0.40 m (L x W x H)
Max. Fall Height:	up to 0.99 m
Safety Surfacing Area:	Ø 3.60 m (according to STN EN 1176-1)
Materials:	Galvanised and powder-coated steel, HPL, stainless steel fasteners
Weight:	20 kg
