Triple balance bar
VVZ-BAL008-T

VVZ-BAL008-T Triple balance bar

The triple balance bar is a low-maintenance play element designed to develop strength, agility and overall physical fitness. The three bars provide a wider range of opportunities for traversing, hanging and other physical activities, while their arrangement allows several children to use the element at the same time. Playing on the element naturally supports upper-limb strength, movement coordination and the development of physical skills. The structure is made of hot-dip galvanised steel with a durable powder-coated finish. Stainless-steel fasteners contribute to a long service life in outdoor environments.

Specifications

The Triple balance bar VVZ-BAL008-T is certified according to STN EN 1176

Age Group:	3-14 years
Product Dimensions:	3.50 x 1.80 x 1.20 m (L x W x H)
Max. Fall Height:	up to 0.99 m
Safety Surfacing Area:	6.60 x 4.90 m (according to STN EN 1176-1)
Materials:	Galvanised and powder-coated steel, stainless steel fasteners
Weight:	28 kg
