Quadruple balance bar
VVZ-BAL009-T

VVZ-BAL009-T Quadruple balance bar

The quadruple balance bar is a low-maintenance play element designed to develop strength, agility and overall physical fitness. The four bars provide a wider range of opportunities for traversing, hanging and other physical activities while allowing several children to use the element at the same time. Playing on the element naturally supports upper-limb strength, movement coordination and the development of physical skills. The structure is made of hot-dip galvanised steel with a durable powder-coated finish. Stainless-steel fasteners contribute to a long service life in outdoor environments.

Specifications

The Quadruple balance bar VVZ-BAL009-T is certified according to STN EN 1176

Age Group:	3-14 years
Product Dimensions:	3.50 x 3.50 x 1.20 m (L x W x H)
Max. Fall Height:	up to 0.99 m
Safety Surfacing Area:	6.60 x 6.70 m (according to STN EN 1176-1)
Materials:	Galvanised and powder-coated steel, stainless steel fasteners
Weight:	33 kg
