Triple balance bar
VVZ-BAL010-T

VVZ-BAL010-T Triple balance bar

The triple balance bar is a low-maintenance play element designed to develop strength, agility and overall physical fitness. The bars are positioned at different levels so they can be comfortably used by both smaller and taller children. The element offers opportunities for traversing, hanging and other physical activities that naturally support upper-limb strength and movement coordination. The structure is made of hot-dip galvanised steel with a durable powder-coated finish. Stainless-steel fasteners contribute to a long service life in outdoor environments.

Specifications

The Triple balance bar VVZ-BAL010-T is certified according to STN EN 1176

Age Group:	3-14 years
Product Dimensions:	3.50 x 1.80 x 1.20 m (L x W x H)
Max. Fall Height:	up to 0.99 m
Safety Surfacing Area:	6.60 x 4.80 m (according to STN EN 1176-1)
Materials:	Galvanised and powder-coated steel, stainless steel fasteners
Weight:	35 kg
