Educational panel – Clock
VVZ-EDU003-T

VVZ-EDU003-T Educational panel – Clock

Educational panel – Clock serves for learning about time, hours, and the function of clock hands in a playful way. The colour-coded hands on the panel are movable, allowing children to interactively practise telling the time. The framework of the panel is made of galvanised steel treated with durable powder coating. The play panel itself is made of high-quality HPL material, which is colourfast, non-toxic, recyclable, shatterproof, and UV-resistant. This eliminates the risk of injury to children from sharp edges or fragments. All fasteners are made of stainless steel and covered with plastic caps to increase safety and durability.

Specifications

The Educational panel – Clock VVZ-EDU003-T is certified according to STN EN 1176

Age Group:	3-14 years
Product Dimensions:	0.90 x 0.05 x 1.30 m (L x W x H)
Materials:	HPL, Galvanised and powder-coated steel, stainless steel fasteners
Weight:	20 kg
