Educational panel – Abacus to 100
VVZ-EDU007-T

VVZ-EDU007-T Educational panel – Abacus to 100

Educational panel – Abacus to 100 is a popular play equipment with ten rows of ten discs, used for practising addition, subtraction, and basic multiplication. Working with the one hundred multi-coloured elements naturally develops children's mathematical literacy and fine motor skills. The framework of the panel is made of galvanised steel treated with durable powder coating. The play panel itself is made of high-quality HPL material, and the discs are made of durable HDPE plastic, which is colourfast, non-toxic, recyclable, shatterproof, and UV-resistant. This eliminates the risk of injury to children from sharp edges or fragments. All fasteners are made of stainless steel and covered with plastic caps to increase safety and durability.

Specifications

The Educational panel – Abacus to 100 VVZ-EDU007-T is certified according to STN EN 1176

Age Group:	3-14 years
Product Dimensions:	0.90 x 0.05 x 1.50 m (L x W x H)
Materials:	HDPE plastic, HPL, Galvanised and powder-coated steel, stainless steel fasteners
Weight:	30 kg
