Educational panel – Telephone box
VVZ-EDU011-T

VVZ-EDU011-T Educational panel – Telephone box

Educational panel – Telephone box consists of two separate parts connected by underground piping and allows children to communicate from one end of the playground to the other. The play panel, featuring a traditional British telephone box design, is complemented by important emergency numbers. The framework of the panel is made of galvanised steel treated with durable powder coating. The play panel itself is made of high-quality HPL material, which is colourfast, non-toxic, recyclable, shatterproof, and UV-resistant. This eliminates the risk of injury to children from sharp edges or fragments. All fasteners are made of stainless steel and covered with plastic caps to increase safety and durability.

Specifications

The Educational panel – Telephone box VVZ-EDU011-T is certified according to STN EN 1176

Age Group:	3-14 years
Product Dimensions:	0.70 x 0.30 x 1.40 m (L x W x H)
Materials:	HPL, Galvanised and powder-coated steel, stainless steel fasteners
Weight:	34 kg
