Educational panel – Drawing board and abacus VVZ-EDU012-T

VVZ-EDU012-T Educational panel – Drawing board and abacus

Educational panel – Drawing board and abacus is an ideal element for kindergartens and public playgrounds, where children develop their creativity through chalk drawing. The double-sided board measuring 1.5 x 0.9 m provides a generous space for shared group activities. The panel also includes an abacus used for practising basic mathematical tasks, developing children's fine motor skills in a playful way. The framework of the panel is made of galvanised steel treated with durable powder coating. The play panel itself is made of high-quality HPL material, and the discs are made of durable HDPE plastic. These materials are colourfast, non-toxic, recyclable, shatterproof, and UV-resistant, eliminating the risk of injury to children from sharp edges or fragments. All fasteners are made of stainless steel and covered with plastic caps to increase safety and durability.

Specifications

The Educational panel – Drawing board and abacus VVZ-EDU012-T is certified according to STN EN 1176

Age Group:	3-14 years
Product Dimensions:	2.40 x 0.05 x 1.40 m (L x W x H)
Materials:	HDPE plastic, HPL, Galvanised and powder-coated steel, stainless steel fasteners
Weight:	55 kg
