Educational panel – Ball toss
VVZ-EDU020-T

VVZ-EDU020-T Educational panel – Ball toss

This educational panel is designed for practicing motor skills, accuracy and basic counting through throwing a ball through an integrated hoop. The unit helps to develop hand-eye coordination and stimulates sporting activity. The supporting structure of the panel is manufactured from galvanised steel with a durable powder-coated finish. The decorative panel itself is crafted from high-quality HPL material. This material is chemically resistant, colourfast, non-toxic, recyclable and shatterproof, eliminating any risk of injury from sharp edges or splinters. For maximum safety and extended service life, all stainless steel fasteners are enclosed in plastic protective caps.

Specifications

The Educational panel – Ball toss VVZ-EDU020-T is certified according to STN EN 1176

Age Group:	3-14 years
Product Dimensions:	0.80 x 0.60 x 2.30 m (L x W x H)
Materials:	HPL, Galvanised and powder-coated steel, stainless steel fasteners
Weight:	22 kg
