VVZ-LEZ001-T Climbing wall

The climbing wall is a double-sided play element offering a variety of climbing activities and physical challenges. The main feature is an HPL climbing wall with integrated handholds, complemented by a climbing pole and balance steps. The varied climbing activities naturally support the development of strength, agility, movement coordination and overall physical fitness. The steel structure with a durable surface finish is designed for long-term outdoor use. HPL components and stainless-steel fasteners contribute to high durability and a long service life.
