Rope Structure - A-Frame
VVZ-LP003-T

VVZ-LP003-T Rope Structure - A-Frame

The A-frame rope structure offers children a variety of climbing opportunities across its inclined rope nets. Climbing on the angled surfaces naturally supports the development of balance, coordination, strength and agility. The steel structure with a durable surface finish is complemented by polyester ropes with a steel core, offering high strength, colour stability and resistance to UV radiation, weather conditions and mechanical stress. The connecting components are made of stainless steel.

Specifications

The Rope Structure - A-Frame VVZ-LP003-T is certified according to STN EN 1176

Age Group:	3-14 years
Product Dimensions:	2.10 x 1.50 x 1.10 m (L x W x H)
Max. Fall Height:	up to 0.99 m
Safety Surfacing Area:	5.20 x 4.50 m (according to STN EN 1176-1)
Materials:	Galvanised and powder-coated steel, polypropylene rope, stainless steel fasteners
Weight:	50 kg
