Rope Climbing Wall - Low Wall
VVZ-LP004-T

VVZ-LP004-T Rope Climbing Wall - Low Wall

The low rope climbing wall offers children opportunities to climb and move across the rope net in different directions. Climbing naturally supports the development of movement coordination, strength, balance and agility. The steel structure with a durable surface finish is complemented by polyester ropes with a steel core, offering high strength, colour stability and resistance to UV radiation, weather conditions and mechanical stress. The connecting components are made of stainless steel.

Specifications

The Rope Climbing Wall - Low Wall VVZ-LP004-T is certified according to STN EN 1176

Age Group:	3-14 years
Product Dimensions:	2.00 x 0.10 x 2.00 m (L x W x H)
Max. Fall Height:	up to 0.99 m
Safety Surfacing Area:	5.00 x 3.10 m (according to STN EN 1176-1)
Materials:	Galvanised and powder-coated steel, polypropylene rope, stainless steel fasteners
Weight:	60 kg
