Rope Structure - High Wall
VVZ-LP006-T

VVZ-LP006-T Rope Structure - High Wall

The high rope climbing wall offers children a large area for climbing and moving across the rope net. The structure is complemented by four arched supports that can also be used for hanging, somersaults and climbing. These varied movement activities naturally support the development of coordination, balance, strength and agility. The steel structure with a durable surface finish is complemented by polyester ropes with a steel core, offering high strength, colour stability and resistance to UV radiation, weather conditions and mechanical stress. The connecting components are made of stainless steel.

Specifications

The Rope Structure - High Wall VVZ-LP006-T is certified according to STN EN 1176

Age Group:	3-14 years
Product Dimensions:	4.00 x 1.90 x 3.00 m (L x W x H)
Max. Fall Height:	up to 2.00 m
Safety Surfacing Area:	6.30 x 5.90 m (according to STN EN 1176-1)
Materials:	Galvanised and powder-coated steel, polypropylene rope, stainless steel fasteners
Weight:	150 kg
