VVZ-LP008-T Small Rope Igloo with Tunnel

The small rope igloo with tunnel consists of three side rope nets and a central funnel-shaped rope tunnel, complemented by suspended balance stones. The variety of climbing and obstacle-crossing activities naturally supports the development of coordination, balance, strength and agility. The steel structure with a durable surface finish is complemented by polyester ropes with a steel core, offering high strength, colour stability and resistance to UV radiation, weather conditions and mechanical stress. The connecting components are made of stainless steel.
