Rope Structure - Balance Bridge with Rope Wall VVZ-LP021-T

VVZ-LP021-T Rope Structure - Balance Bridge with Rope Wall

The balance bridge with rope wall combines crossing suspended stepping platforms with climbing on a rope net. The moving steps and rope wall naturally support the development of balance, coordination, strength and agility. The steel structure with a durable surface finish is complemented by anti-slip HPL stepping platforms and polyester ropes with a steel core, offering high strength, colour stability and resistance to UV radiation, weather conditions and mechanical stress. The connecting components are made of stainless steel.

Specifications

The Rope Structure - Balance Bridge with Rope Wall VVZ-LP021-T is certified according to STN EN 1176

Age Group:	3-14 years
Product Dimensions:	6.40 x 5.10 x 2.50 m (L x W x H)
Max. Fall Height:	up to 2.50 m
Safety Surfacing Area:	10.00 x 9.00 m (according to STN EN 1176-1)
Materials:	Galvanised and powder-coated steel, HDPE, HPL, polypropylene rope, stainless steel fasteners
Weight:	380 kg
