Balance bridge
VVZ-M1-02-T

VVZ-M1-02-T Balance bridge

The balance bridge with HPL steps offers children an engaging physical challenge as they move across the individually suspended stepping platforms. The movement of the steps naturally supports the development of balance, stability, movement coordination and overall agility. The anti-slip HPL steps are suspended on strong polyester ropes, creating dynamic movement with every step. The steel structure with a durable surface finish, together with stainless-steel fasteners, ensures high durability and a long service life in outdoor environments

Specifications

The Balance bridge VVZ-M1-02-T is certified according to STN EN 1176

Age Group:	3-14 years
Product Dimensions:	2.20 x 0.90 x 1.10 m (L x W x H)
Max. Fall Height:	up to 0.99 m
Safety Surfacing Area:	5.20 x 4.00 m (according to STN EN 1176-1)
Materials:	Galvanised and powder-coated steel, HPL, polypropylene rope, stainless steel fasteners
Weight:	60 kg
