Curved balance bridge
VVZ-M1-03-T

VVZ-M1-03-T Curved balance bridge

The curved balance bridge with HPL steps offers children an engaging physical challenge as they move across the individually suspended stepping platforms. The steps are positioned at different heights, making the crossing more varied and challenging while maintaining stability. The movement of the individual steps naturally supports the development of balance, movement coordination and overall agility. The anti-slip HPL steps are suspended on strong polyester ropes. The curved steel structure with a durable surface finish, together with stainless-steel fasteners, ensures high durability and a long service life in outdoor environments

Specifications

The Curved balance bridge VVZ-M1-03-T is certified according to STN EN 1176

Age Group:	3-14 years
Product Dimensions:	2.20 x 0.90 x 1.30 m (L x W x H)
Max. Fall Height:	up to 0.99 m
Safety Surfacing Area:	5.20 x 4.00 m (according to STN EN 1176-1)
Materials:	Galvanised and powder-coated steel, HPL, polypropylene rope, stainless steel fasteners
Weight:	65 kg
