Curved rope bridge
VVZ-M1-04-T

VVZ-M1-04-T Curved rope bridge

The curved rope bridge is a balancing play element that offers children an engaging physical challenge as they cross the narrow suspended rope walkway. The flexible movement of the rope section naturally supports the development of balance, stability, movement coordination and overall agility. The strong polyester ropes offer high resistance to mechanical stress and weathering. The curved steel structure with a durable surface finish, together with stainless-steel fasteners, ensures high durability and a long service life in outdoor environments.

Specifications

The Curved rope bridge VVZ-M1-04-T is certified according to STN EN 1176

Age Group:	3-14 years
Product Dimensions:	2.20 x 0.90 x 1.30 m (L x W x H)
Max. Fall Height:	up to 0.99 m
Safety Surfacing Area:	5.20 x 4.00 m (according to STN EN 1176-1)
Materials:	Galvanised and powder-coated steel, polypropylene rope, stainless steel fasteners
Weight:	80 kg
