Double balance bridge
VVZ-M2-01-T

VVZ-M2-01-T Double balance bridge

The double balance bridge with HPL steps offers children a longer and more varied physical challenge as they move across the individually suspended stepping platforms. Two connected bridge sections combine a straight and a curved part, creating a more varied route and increasing the challenge of maintaining stability. The movement of the individual steps naturally supports the development of balance, movement coordination and overall agility. The anti-slip HPL steps are suspended on strong polyester ropes. The steel structure with a durable surface finish, together with stainless-steel fasteners, ensures high durability and a long service life in outdoor environments.

Specifications

The Double balance bridge VVZ-M2-01-T is certified according to STN EN 1176

Age Group:	3-14 years
Product Dimensions:	4.30 x 0.90 x 1.30 m (L x W x H)
Max. Fall Height:	up to 0.99 m
Safety Surfacing Area:	7.30 x 4.00 m (according to STN EN 1176-1)
Materials:	Galvanised and powder-coated steel, HPL, polypropylene rope, stainless steel fasteners
Weight:	110 kg
