Double balance bridge
VVZ-M2-02-T

VVZ-M2-02-T Double balance bridge

The double balance bridge with anti-slip HPL steps suspended on polyester ropes is a play element that naturally supports the development of coordination, stability and balance. The two connected sections combine a straight and a curved part, creating a more varied and challenging balancing route. The movement of the individual steps while crossing also helps develop agility and confidence in movement. The steel structure with a durable surface finish, together with stainless-steel fasteners, ensures high durability and a long service life in outdoor environments.

Specifications

The Double balance bridge VVZ-M2-02-T is certified according to STN EN 1176

Age Group:	3-14 years
Product Dimensions:	4.30 x 0.90 x 1.30 m (L x W x H)
Max. Fall Height:	up to 0.99 m
Safety Surfacing Area:	7.30 x 4.00 m (according to STN EN 1176-1)
Materials:	Galvanised and powder-coated steel, HPL, polypropylene rope, stainless steel fasteners
Weight:	120 kg
