Combined bridge play structure
VVZ-MZ-01-T

VVZ-MZ-01-T Combined bridge play structure

The combined bridge play structure connects several balancing and rope elements into an extensive activity route that naturally supports the development of coordination, stability, balance and agility. The structure combines HPL steps suspended on polyester ropes, rope crossings, fixed platforms, balance steps and a tunnel, providing children with a varied range of physical challenges. The corrugated tunnel with UV protection adds another way to crawl, climb and explore. The steel structure with a durable surface finish, strong polyester ropes and stainless-steel fasteners ensure high durability and a long service life in outdoor environments.

Specifications

The Combined bridge play structure VVZ-MZ-01-T is certified according to STN EN 1176

Age Group:	3-14 years
Product Dimensions:	6.90 x 5.50 x 1.30 m (L x W x H)
Max. Fall Height:	up to 0.99 m
Safety Surfacing Area:	10.00 x 8.60 m (according to STN EN 1176-1)
Materials:	Galvanised and powder-coated steel, HPL, corrugated pipe, polypropylene rope, stainless steel fasteners
Weight:	700 kg
