Educational double sandpit with a drawing board and an abacus
VVZ-PD008-T

VVZ-PD008-T Educational double sandpit with a drawing board and an abacus

This maintenance-free double sandpit features a 10 mm thick perimeter HPL strip to prevent sand from spilling outside. The centre, equipped with an abacus and a drawing board, provides children with fun, play, and an opportunity to practice counting. On the abacus, children can practice addition, subtraction, and basic multiplication tables. Triangle-shaped seats, suitable for both children and parents, are located in the corners of the sandpit. The structure of the sandpit and the canopy is made of galvanised and powder-coated steel. It is designed with long service life and safety in mind. The side walls, drawing board, and seats are made of HPL material, which is chemically resistant, UV-resistant, non-toxic, recyclable, and shatterproof. This eliminates the risk of children being injured by sharp edges or fragments. All fasteners are made of stainless steel and covered with plastic caps to enhance durability and safety.

Specifications

The Educational double sandpit with a drawing board and an abacus VVZ-PD008-T is certified according to STN EN 1176

Age Group:	3-14 years
Product Dimensions:	5.00 x 3.20 x 1.10 m (L x W x H)
Materials:	HPL, Galvanised and powder-coated steel, stainless steel fasteners
Weight:	145 kg
