Hexagonal sandpit
VVZ-PD009-T

VVZ-PD009-T Hexagonal sandpit

This maintenance-free hexagonal sandpit features a 10 mm thick perimeter HPL strip to prevent sand from spilling outside. Various geometric shapes are displayed on the strip. Triangle, rectangle, and circle-shaped seats, suitable for both children and parents, are located in the corners of the sandpit. The sandpit structure is made of hot-dip galvanised steel, finished with thermosetting powder coating. It is designed with long service life and safety in mind. The side walls and seats are made of HPL material, which is chemically resistant, UV-resistant, non-toxic, recyclable, and shatterproof. This eliminates the risk of children being injured by sharp edges or fragments. All fasteners are made of stainless steel and covered with plastic caps to enhance durability and safety. The sandpit is supplied without sand as standard.

Specifications

The Hexagonal sandpit VVZ-PD009-T is certified according to STN EN 1176

Age Group:	3-14 years
Product Dimensions:	2.70 x 3.00 x 0.30 m (L x W x H)
Materials:	HPL, Galvanised and powder-coated steel, stainless steel fasteners
Weight:	55 kg
