Sandpit 4 × 2 m
VVZ-PD010-T

VVZ-PD010-T Sandpit 4 × 2 m

This maintenance-free sandpit with a surface area of 4 × 2 metres features a perimeter HPL strip to prevent sand spillage and includes geometric shapes. It features four corner seats suitable for children and parents. The structure is made of galvanised and powder-coated steel for long durability. The side walls and seats are made of chemical-resistant, UV-stable, non-toxic, recyclable, and shatterproof HPL material. This eliminates the risk of children being injured by sharp edges or fragments. The sandpit is supplied without sand as standard.
