Small Playhouse
VVZ-PD013-1-T

VVZ-PD013-1-T Small Playhouse

This small playhouse with a pitched roof is an ideal play unit for kindergartens. Inside, there are two side benches that provide children with space for seating, play, and relaxation. The playhouse structure is made of galvanised and powder-coated steel. All panels are made of HPL material with UV protection, which is colourfast, non-toxic, and shatterproof. This eliminates the risk of children being injured by sharp edges or fragments. All fasteners are made of stainless steel and covered with plastic caps.
