Spring Rocker Motorcycle with Sidecar
VVZ-SH004-2

VVZ-SH004-2 Spring Rocker Motorcycle with Sidecar

The materials and construction of this spring rocker, designed as a motorcycle with sidecar, ensure long service life and safety. The steel spring with its durable surface finish and the HPL panels guarantee durability, colorfastness, and safety. The HPL material is chemically resistant, UV-resistant, non-toxic, recyclable, and resistant to breakage, so children are not at risk of injury from sharp edges or splinters. Spring rockers can be installed on grass, gravel, or sand playgrounds, or you can use a grass mat, rubber mat, or EPDM surfacing underneath the rocker. All spring rockers comply with the STN EN 1176 safety standard.
