Tunnel – Playhouse
VVZ-TU001-5

VVZ-TU001-5 Tunnel – Playhouse

This play product in the shape of a house with a plastic tunnel is our smallest version in this series. The themed design stimulates children's imagination and invites creative, role-play exploration. The front and rear graphic panels are made of HPL material, ensuring long service life, color stability, and safety. HPL is an eco-friendly material that is chemically resistant, UV-resistant, non-toxic, recyclable, and resistant to breakage - eliminating the risk of injury from sharp edges or splinters. All fasteners are stainless steel.
