VVZ-VH014-15-T Hanging Swing - Nest Swing on Tripod

The tripod swing with a Nest swing seat provides a spacious surface for comfortable swinging and shared play. The large ergonomically shaped seat offers plenty of space and good support, while the swinging motion naturally supports the development of balance and coordination. The tripod structure provides a stable and distinctive solution for public playgrounds. A grass safety mat is recommended as the impact-attenuating surface. Stainless-steel chains and the steel structure with a durable surface finish provide high resistance to weather conditions for long-term outdoor use.
