VVZ-VZ1-003-15-T Single-Tower Combined Play Structure - Tall

This single-tower combined play structure features a tower with battlements, which children can climb using the climbing wall or the ladder climber, then descend via the slide. The steel structure is weather-resistant thanks to galvanising and a durable powder-coated finish. The HPL panels used are chemically resistant, UV-resistant - color-stable, non-toxic, recyclable, and shatter-resistant. This eliminates the risk of injury to children from sharp edges or splinters. All joints are stainless steel and covered with plastic protective caps for increased durability and safety.
