Single-Tower Combined Play Structure - Low VVZ-VZ1-005-15-T

VVZ-VZ1-005-15-T Single-Tower Combined Play Structure - Low

This single-tower combined play structure features a tower that children can climb using a rope climbing wall or a climbing wall with handholds, then descend via the slide. Its eye-catching design invites play from a distance. The steel structure is weather-resistant thanks to galvanising and a durable powder-coated finish. The HDPE plastic used is chemically resistant, UV-resistant - color-stable, non-toxic, recyclable, and resistant to breakage. This eliminates the risk of injury to children from sharp edges or fragments. The ropes are made of polyester fibers wound around a central reinforcement. This rope construction increases strength and resistance to mechanical wear. Polyester itself is resistant to microorganisms and weathering, dries quickly after rain, is color-stable, and offers high strength. All joints are stainless steel and covered with plastic protective caps to enhance durability and safety.

Specifications

The Single-Tower Combined Play Structure - Low VVZ-VZ1-005-15-T is certified according to STN EN 1176

Age Group:	3-14 years
Product Dimensions:	3.70 x 0.90 x 2.50 m (L x W x H)
Max. Fall Height:	up to 1.50 m
Safety Surfacing Area:	7.30 x 4.00 m (according to STN EN 1176-1)
Materials:	Galvanised and powder-coated steel, HPL, LDPE, polypropylene rope, stainless steel fasteners
Weight:	175 kg

Single-Tower Combined Play Structure - Low
