Single-Tower Combined Play Structure - Low
VVZ-VZ1-007-15-T

VVZ-VZ1-007-15-T Single-Tower Combined Play Structure - Low

This single-tower combined play structure features a low tower that children can climb via steps, a sloped climbing wall with handholds, or a rope climber, before descending by slide. Its striking design invites children to play from a distance. The steel structure resists weathering thanks to galvanising and a durable powder-coated finish. The HPL panels used are chemically resistant, UV-resistant, color-stable, non-toxic, recyclable, and shatter-resistant, so children are not at risk of injury from sharp edges or fragments. All connections are made of stainless steel and covered with plastic protective caps for increased durability and safety.

Specifications

The Single-Tower Combined Play Structure - Low VVZ-VZ1-007-15-T is certified according to STN EN 1176

Age Group:	3-14 years
Product Dimensions:	4.10 x 1.30 x 2.50 m (L x W x H)
Max. Fall Height:	up to 1.50 m
Safety Surfacing Area:	7.70 x 4.40 m (according to STN EN 1176-1)
Materials:	Galvanised and powder-coated steel, HPL, LDPE, polypropylene rope, stainless steel fasteners
Weight:	300 kg
