VVZ-VZ10-001-15-T Ten-Tower Combined Play Structure - Tall

Ten-tower combined play structure. Six towers with battlement-style parapets and four low towers are connected by rope bridges, rope balance bridges, tunnels, and diagonal rope walls. The structure includes steps, vertical climbing walls, sloped climbing walls, vertical climbing nets, sloped climbing nets, a tic-tac-toe panel, an abacus, and five slides. Its striking design invites children to play from a distance. The steel structure is weather-resistant thanks to galvanising and a durable powder-coated finish. The HPL panels used are chemically resistant, UV-resistant, color-stable, non-toxic, recyclable, and shatter-resistant, so there is no risk of injury to children from sharp edges or fragments. The ropes are made of polyester fibers wound around a central reinforcement. This rope construction increases strength and resistance to mechanical wear. Polyester itself is resistant to microorganisms and weathering, dries quickly after rain, is color-stable, and offers high strength. All joints are made of stainless steel and covered with plastic protective caps to increase durability and safety.

Specifications

The Ten-Tower Combined Play Structure - Tall VVZ-VZ10-001-15-T is certified according to STN EN 1176

Age Group:	3-14 years
Product Dimensions:	12.10 x 10.60 x 3.60 m (L x W x H)
Max. Fall Height:	up to 1.50 m
Safety Surfacing Area:	15.20 x 14.80 m (according to STN EN 1176-1)
Materials:	Galvanised and powder-coated steel, HPL, LDPE, corrugated pipe, polypropylene rope, stainless steel fasteners
Weight:	2050 kg
