Double-Tower Combined Play Structure - Tall
VVZ-VZ2-003-15-T

VVZ-VZ2-003-15-T Double-Tower Combined Play Structure - Tall

A double-tower combined play structure - two towers connected by a tunnel. Children can climb onto the structure via one of two climbing walls with handholds, a climbing net, or a ladder, and come back down via one of two slides. Its striking design invites play from a distance. The steel structure is weather-resistant thanks to galvanising and a durable powder-coated finish. The HPL material used is chemically resistant, UV-resistant - color-stable, non-toxic, recyclable, and shatter-resistant. This means children are not at risk of injury from sharp edges or splinters. The ropes are made of polyester fibers wound around a central reinforcement. This rope construction increases strength and resistance to mechanical wear. Polyester itself is resistant to microorganisms and weathering, dries quickly after rain, is color-stable, and offers high strength. All joints are stainless steel and covered with plastic protective caps to increase durability and safety.

Specifications

The Double-Tower Combined Play Structure - Tall VVZ-VZ2-003-15-T is certified according to STN EN 1176

Age Group:	3-14 years
Product Dimensions:	5.50 x 3.70 x 3.60 m (L x W x H)
Max. Fall Height:	up to 1.50 m
Safety Surfacing Area:	9.20 x 7.40 m (according to STN EN 1176-1)
Materials:	Galvanised and powder-coated steel, HPL, LDPE, polypropylene rope, stainless steel fasteners
Weight:	610 kg
