VVZ-VZ2-007-15-T Double-Tower Combined Play Structure - Tall

This double-tower combined play structure features two towers connected by a rope balance bridge. Children can climb up via the climbing wall with handholds, a ladder, a climbing net, or steps, and come back down using one of the two slides. Its striking design invites children to play even from a distance. The steel structure is weather-resistant thanks to galvanising and a durable powder-coated finish. The HPL panels used are chemically resistant, UV-resistant, color-stable, non-toxic, recyclable, and shatter-resistant, eliminating the risk of injury from sharp edges or splinters. The ropes are made of polyester fibers wound around a central reinforcement, a construction that increases strength and resistance to mechanical wear. Polyester itself is resistant to microorganisms and weathering, dries quickly after rain, is color-stable, and offers high strength. All joints are made of stainless steel and covered with plastic protective caps to enhance durability and safety.

Specifications

The Double-Tower Combined Play Structure - Tall VVZ-VZ2-007-15-T is certified according to STN EN 1176

Age Group:	3-14 years
Product Dimensions:	6.50 x 3.70 x 3.60 m (L x W x H)
Max. Fall Height:	up to 1.50 m
Safety Surfacing Area:	10.10 x 7.40 m (according to STN EN 1176-1)
Materials:	Galvanised and powder-coated steel, HPL, LDPE, polypropylene rope, stainless steel fasteners
Weight:	395 kg
