**VVZ-VZ2-008-15-T Double-Tower Combined Play Structure - Tall**

This double-tower combined play structure consists of two towers connected by a tunnel. Children can climb up using the climbing wall with handholds, the ladder, the steps, or the arch rope net, and come down via one of two slides. Its striking design invites play from a distance. The steel structure is weather-resistant thanks to galvanising and a durable powder-coated finish. The HPL material used is chemically resistant, UV-resistant, colorfast, non-toxic, recyclable, and shatter-resistant, so there is no risk of injury from sharp edges or splinters. The ropes are made of polyester fibers wound around a central reinforcement, a construction that increases the rope's strength and resistance to mechanical wear. Polyester itself is resistant to microorganisms and weathering, dries quickly, is colorfast, and offers high strength. All joints are made of stainless steel and covered with plastic protective caps to increase durability and safety.

**Specifications**

The Double-Tower Combined Play Structure - Tall VVZ-VZ2-008-15-T is certified according to STN EN 1176

| | |
|---|---|
| **Age Group:** | 3-14 years |
| **Product Dimensions:** | 5.50 x 4.10 x 3.60 m (L x W x H) |
| **Max. Fall Height:** | up to 1.50 m |
| **Safety Surfacing Area:** | 9.20 x 7.70 m (according to STN EN 1176-1) |
| **Materials:** | Galvanised and powder-coated steel, HPL, LDPE, polypropylene rope, stainless steel fasteners |
| **Weight:** | 440 kg |
