VVZ-VZ2-009-15-T Double-Tower Combined Play Structure - Tall

This double-tower combined play structure features two towers connected by a rope balance bridge. Children can climb up via a sloped climbing wall with handholds, steps, or a sloped rope net, and come back down on one of two slides. Its striking design invites children to play from a distance. The steel structure is weather-resistant thanks to galvanising and a durable powder-coated finish. The HPL material used is chemically resistant, UV-resistant - color-stable, non-toxic, recyclable, and shatter-resistant, so there is no risk of injury from sharp edges or fragments. The ropes are made of polyester fibers wound around a central reinforcement. This rope construction increases strength and resistance to mechanical stress. The polyester itself is resistant to microorganisms and weathering, dries quickly after rain, is color-stable, and offers high strength. All joints are made of stainless steel and covered with plastic protective caps to increase durability and safety.

Specifications

The Double-Tower Combined Play Structure - Tall VVZ-VZ2-009-15-T is certified according to STN EN 1176

Age Group:	3-14 years
Product Dimensions:	4.90 x 5.80 x 3.60 m (L x W x H)
Max. Fall Height:	up to 1.50 m
Safety Surfacing Area:	7.90 x 9.80 m (according to STN EN 1176-1)
Materials:	Galvanised and powder-coated steel, HPL, LDPE, polypropylene rope, stainless steel fasteners
Weight:	445 kg
