# Triple-Tower Combined Play Structure - Tall
# VVZ-VZ3-003-15-T

**VVZ-VZ3-003-15-T Triple-Tower Combined Play Structure - Tall**

Triple-tower combined play structure in an L-shape layout. Two towers are connected to the central tower with battlements by a rope bridge and a tunnel. Children can climb onto the structure using steps, a sloped climbing wall with handholds and a rope, or a climbing net, and descend using one of three slides. The bold design catches children's attention and invites play from a distance. The steel structure is weather-resistant thanks to galvanising and a durable powder-coated finish. The HPL panels used are chemically resistant, UV-resistant - color-stable, non-toxic, recyclable, and resistant to breakage, preventing injury to children from sharp edges or splinters. The ropes are made of polyester fibers wound around a central reinforcement. This rope construction increases strength and resistance to mechanical wear. Polyester itself is resistant to microorganisms and weathering, dries quickly after rain, is color-stable, and offers high strength. All joints are stainless steel and covered with plastic protective caps for increased durability and safety.

**Specifications**

The Triple-Tower Combined Play Structure - Tall VVZ-VZ3-003-15-T is certified according to STN EN 1176

| | |
|---|---|
| **Age Group:** | 3-14 years |
| **Product Dimensions:** | 6.50 x 5.80 x 3.60 m (L x W x H) |
| **Max. Fall Height:** | up to 1.50 m |
| **Safety Surfacing Area:** | 10.10 x 9.40 m (according to STN EN 1176-1) |
| **Materials:** | Galvanised and powder-coated steel, HPL, LDPE, corrugated pipe, polypropylene rope, stainless steel fasteners |
| **Weight:** | 660 kg |
