Four-Tower Combined Play Structure - Tall
VVZ-VZ4-001-15-T

VVZ-VZ4-001-15-T Four-Tower Combined Play Structure - Tall

A four-tower combined play structure. Two towers with battlements and two lower towers are connected by a diagonal rope wall, a rope balance bridge, a rope bridge, and a tunnel. The structure includes steps, a vertical climbing wall, a climbing bar, a climbing net, a ladder, and two slides. Its striking design invites children to play from a distance. The steel structure is weather-resistant thanks to galvanising and a durable powder-coated finish. The HDPE plastic used is chemically resistant, UV-resistant and color-stable, non-toxic, recyclable, and resistant to breakage. This prevents children from being injured by sharp edges or fragments. The ropes are made of polyester fibers wound around a central reinforcement. This rope construction increases its strength and resistance to mechanical stress. Polyester itself is resistant to microorganisms and weathering, dries quickly after rain, is color-stable, and offers high strength. All joints are made of stainless steel and covered with plastic protective caps for increased durability and safety.

Specifications

The Four-Tower Combined Play Structure - Tall VVZ-VZ4-001-15-T is certified according to STN EN 1176

Age Group:	3-14 years
Product Dimensions:	5.80 x 6.30 x 3.60 m (L x W x H)
Max. Fall Height:	up to 1.50 m
Safety Surfacing Area:	9.50 x 9.90 m (according to STN EN 1176-1)
Materials:	Galvanised and powder-coated steel, HPL, LDPE, corrugated pipe, polypropylene rope, stainless steel fasteners
Weight:	785 kg
