Four-Tower Combined Play Structure - Tall
VVZ-VZ4-002-15-T

VVZ-VZ4-002-15-T Four-Tower Combined Play Structure - Tall

A four-tower combined play structure. Two towers with battlements and two low towers are connected by a diagonal rope wall, a rope bridge, and two tunnels. The structure includes steps, a sloped climbing wall, a climbing bar, a sloped rope net, ladders, and two slides. Its striking design invites children to play from a distance. The steel structure is weather-resistant thanks to galvanising and a durable powder-coated finish. The HPL material used is chemically resistant, UV-resistant - color-stable, non-toxic, recyclable, and resistant to breakage. This means there is no risk of injury to children from sharp edges or splinters. The ropes are made of polyester fibers wound around a central reinforcement. This rope construction increases its strength and resistance to mechanical stress. Polyester itself is resistant to microorganisms and weathering, dries quickly after rain, is color-stable, and features high strength. All joints are stainless steel and covered with plastic protective caps to increase durability and safety.

Specifications

The Four-Tower Combined Play Structure - Tall VVZ-VZ4-002-15-T is certified according to STN EN 1176

Age Group:	3-14 years
Product Dimensions:	6.30 x 4.10 x 3.60 m (L x W x H)
Max. Fall Height:	up to 1.50 m
Safety Surfacing Area:	9.90 x 7.40 m (according to STN EN 1176-1)
Materials:	Galvanised and powder-coated steel, HPL, LDPE, corrugated pipe, polypropylene rope, stainless steel fasteners
Weight:	905 kg
