Six-Tower Combined Play Structure - Tall
VVZ-VZ6-001-15-T

VVZ-VZ6-001-15-T Six-Tower Combined Play Structure - Tall

Six-tower combined play structure. Three towers with battlements and three low towers are connected by a rope bridge, rope balance bridges, and a tunnel. The structure includes steps, sloped climbing walls, sloped rope nets, vertical rope nets, and three slides. Its striking design invites play from a distance. The steel structure is weather-resistant thanks to galvanising and a durable powder-coated finish. The HPL panels used are chemically resistant, UV-resistant - color-stable, non-toxic, recyclable, and shatter-resistant. This prevents children from being injured by sharp edges or fragments. The ropes are made of polyester fibers wound around a central reinforcement. This rope construction increases strength and resistance to mechanical wear. Polyester itself is resistant to microorganisms and weathering, dries quickly after rain, is color-stable, and features high strength. All joints are made of stainless steel and covered with plastic protective caps to increase durability and safety.

Specifications

The Six-Tower Combined Play Structure - Tall VVZ-VZ6-001-15-T is certified according to STN EN 1176

Age Group:	3-14 years
Product Dimensions:	10.60 x 6.50 x 3.60 m (L x W x H)
Max. Fall Height:	up to 1.50 m
Safety Surfacing Area:	14.70 x 9.60 m (according to STN EN 1176-1)
Materials:	Galvanised and powder-coated steel, HPL, LDPE, corrugated pipe, polypropylene rope, stainless steel fasteners
Weight:	1245 kg
