VVZ-VZ7-001-15-T Seven-Tower Combined Play Structure - Tall

Seven-tower combined play structure. The main tower with ramparts and six low towers are connected by a rope bridge, a rope balance bridge, a diagonal rope wall, and tunnels. The structure includes steps, a sloped climbing wall with rope, a vertical climbing wall, sloped rope nets, an abacus, a tic-tac-toe panel, and five slides. Its striking design invites children to play from a distance. The steel structure is weather-resistant thanks to galvanising and a durable powder-coated finish. The HPL panels used are chemically resistant, UV-resistant - color-stable, non-toxic, recyclable, and shatter-resistant, so children are not at risk of injury from sharp edges or fragments. The ropes are made of polyester fibers wound around a central reinforcement. This rope construction increases strength and resistance to mechanical wear. Polyester itself is resistant to microorganisms and weathering, dries quickly after rain, is color-stable, and offers high strength. All joints are made of stainless steel and covered with plastic protective caps to increase durability and safety.

Specifications

The Seven-Tower Combined Play Structure - Tall VVZ-VZ7-001-15-T is certified according to STN EN 1176

Age Group:	3-14 years
Product Dimensions:	8.70 x 10.60 x 3.60 m (L x W x H)
Max. Fall Height:	up to 1.50 m
Safety Surfacing Area:	12.40 x 14.80 m (according to STN EN 1176-1)
Materials:	Galvanised and powder-coated steel, HPL, LDPE, corrugated pipe, polypropylene rope, stainless steel fasteners
Weight:	1320 kg
