VVZ-VZ9-001-15-T Nine-Tower Combined Play Structure - Tall

This nine-tower combined play structure offers an extensive and varied play experience. Four towers with battlements and five lower towers are connected by rope bridges, rope balance bridges, and diagonal rope walls. The structure includes steps, a vertical climbing wall, a vertical climbing net, a tic-tac-toe panel, an abacus, and seven slides. Its striking design invites children to play from a distance. The steel structure is weather-resistant thanks to galvanising and a durable powder-coated finish. The HPL panels used are chemically resistant, UV-resistant, color-stable, non-toxic, recyclable, and resistant to breakage, preventing injury to children from sharp edges or splinters. The ropes are made of polyester fibers wound around a central reinforcement. This rope construction increases strength and resistance to mechanical stress. The polyester itself is resistant to microorganisms and weathering, dries quickly after rain, is color-stable, and offers high strength. All joints are made of stainless steel and covered with plastic protective caps for increased durability and safety.

Specifications

The Nine-Tower Combined Play Structure - Tall VVZ-VZ9-001-15-T is certified according to STN EN 1176

Age Group:	3-14 years
Product Dimensions:	10.60 x 10.60 x 3.60 m (L x W x H)
Max. Fall Height:	up to 1.50 m
Safety Surfacing Area:	14.70 x 13.70 m (according to STN EN 1176-1)
Materials:	Galvanised and powder-coated steel, HPL, LDPE, corrugated pipe, polypropylene rope, stainless steel fasteners
Weight:	1820 kg
