Single-Tower Combined Play Structure - High
VVZ-VZP1-001-15-T

VVZ-VZP1-001-15-T Single-Tower Combined Play Structure - High

The single-tower combined play structure is accessible to children via steps and a climbing wall. They can get back down via the slide. The structure also features an abacus panel, the parts of which are made of HPL material. This material is chemically resistant, UV-resistant, colourfast, non-toxic, recyclable, and shatter-resistant. This eliminates the risk of injury to children from sharp edges or splinters. The steel structure is weather-resistant, thanks to galvanising and a durable powder-coated finish. All fasteners are made of stainless steel and covered with plastic protective caps to increase durability and safety.

Specifications

The Single-Tower Combined Play Structure - High VVZ-VZP1-001-15-T is certified according to STN EN 1176

Age Group:	3-14 years
Product Dimensions:	3.80 x 1.80 x 4.00 m (L x W x H)
Max. Fall Height:	up to 1.50 m
Safety Surfacing Area:	7.30 x 4.90 m (according to STN EN 1176-1)
Materials:	Galvanised and powder-coated steel, HPL, LDPE, PA, stainless steel fasteners
Weight:	282 kg
