Single-Tower Combined Play Structure - Low
VVZ-VZP1-004-15-T

VVZ-VZP1-004-15-T Single-Tower Combined Play Structure - Low

The single-tower combined play structure is accessible to children via a sloped climbing wall, a rope net, and steps. They can get back down via the slide. The steel structure is weather-resistant, thanks to galvanising and a durable powder-coated finish. The HPL material used is chemically resistant, UV-resistant, colourfast, non-toxic, recyclable, and shatter-resistant. This eliminates the risk of injury to children from sharp edges or splinters. The ropes are made of polyester fibres wound around a central reinforcement, increasing strength and resistance to mechanical wear. Polyester itself is resistant to micro-organisms and weathering, dries quickly after rain, is colourfast, and offers high strength. All fasteners are made of stainless steel and covered with plastic protective caps to increase durability and safety.

Specifications

The Single-Tower Combined Play Structure - Low VVZ-VZP1-004-15-T is certified according to STN EN 1176

Age Group:	3-14 years
Product Dimensions:	4.20 x 1.30 x 2.35 m (L x W x H)
Max. Fall Height:	up to 1.50 m
Safety Surfacing Area:	7.70 x 4.40 m (according to STN EN 1176-1)
Materials:	Galvanised and powder-coated steel, HPL, LDPE, PA, polypropylene ropes, stainless steel fasteners
Weight:	233 kg
