# Single-Tower Combined Play Structure - High
# VVZ-VZP1-005-15-T

**VVZ-VZP1-005-15-T Single-Tower Combined Play Structure - High**

The single-tower combined play structure is accessible to children via steps and a climbing wall. They can get back down via the slide. The structure also features a balcony. The individual parts of the structure are made of HPL material. This material is chemically resistant, UV-resistant, colourfast, non-toxic, recyclable, and shatter-resistant. This eliminates the risk of injury to children from sharp edges or splinters. The steel structure is weather-resistant, thanks to galvanising and a durable powder-coated finish. All fasteners are made of stainless steel and covered with plastic protective caps to increase durability and safety.

**Specifications**

The Single-Tower Combined Play Structure - High VVZ-VZP1-005-15-T is certified according to STN EN 1176

| | |
|---|---|
| **Age Group:** | 3-14 years |
| **Product Dimensions:** | 3.50 x 2.25 x 4.00 m (L x W x H) |
| **Max. Fall Height:** | up to 1.50 m |
| **Safety Surfacing Area:** | 7.60 x 5.30 m (according to STN EN 1176-1) |
| **Materials:** | Galvanised and powder-coated steel, HPL, LDPE, PA, stainless steel fasteners |
