Single-Tower Combined Play Structure - High, with Roof
VVZ-VZP1-006-15-T

VVZ-VZP1-006-15-T Single-Tower Combined Play Structure - High, with Roof

The single-tower combined play structure is accessible to children via a climbing wall. They can get back down via the slide. The structure also features a curved balcony and a wall with themed cutouts. The individual parts of the structure are made of HPL material. This material is chemically resistant, UV-resistant, colourfast, non-toxic, recyclable, and shatter-resistant. This eliminates the risk of injury to children from sharp edges or splinters. The steel structure is weather-resistant, thanks to galvanising and a durable powder-coated finish. All fasteners are made of stainless steel and covered with plastic protective caps to increase durability and safety.

Specifications

The Single-Tower Combined Play Structure - High, with Roof VVZ-VZP1-006-15-T is certified according to STN EN 1176

Age Group:	3-14 years
Product Dimensions:	3.90 x 1.00 x 4.05 m (L x W x H)
Max. Fall Height:	up to 1.50 m
Safety Surfacing Area:	7.50 x 4.10 m (according to STN EN 1176-1)
Materials:	Galvanised and powder-coated steel, HPL, LDPE, PA, stainless steel fasteners
Weight:	239 kg
