Double-Tower Combined Play Structure - High
VVZ-VZP2-005-15-T

VVZ-VZP2-005-15-T Double-Tower Combined Play Structure - High

The double-tower combined play structure - one tower with battlements, the other low, connected by a rope bridge. Children can access the structure via steps, a climbing wall with handholds, and a ladder. They can get back down via the slide. The play structure includes a swing spar with a standard seat and a Baby seat. The steel structure is weather-resistant, thanks to galvanising and a durable powder-coated finish. The HPL material used is chemically resistant, UV-resistant, colourfast, non-toxic, recyclable, and shatter-resistant. This eliminates the risk of injury to children from sharp edges or splinters. All fasteners are made of stainless steel and covered with plastic protective caps to increase durability and safety.

Specifications

The Double-Tower Combined Play Structure - High VVZ-VZP2-005-15-T is certified according to STN EN 1176

Age Group:	3-14 years
Product Dimensions:	6.60 x 5.70 x 4.00 m (L x W x H)
Max. Fall Height:	up to 1.50 m
Safety Surfacing Area:	10.70 x 7.30 m (according to STN EN 1176-1)
Materials:	Galvanised and powder-coated steel, HPL, LDPE, PA, rubber, polypropylene ropes, stainless steel fasteners and chains
Weight:	452 kg
