Double-Tower Combined Play Structure - Low
VVZ-VZP2-006-15-T

VVZ-VZP2-006-15-T Double-Tower Combined Play Structure - Low

The double-tower combined play structure - two low towers connected by a diagonal rope wall. Children can access the structure via steps, a sloped climbing exit, and a rope climber. They can get back down via one of the two slides. The steel structure is weather-resistant, thanks to galvanising and a durable powder-coated finish. The HPL material used is chemically resistant, UV-resistant, colourfast, non-toxic, recyclable, and shatter-resistant. This eliminates the risk of injury to children from sharp edges or splinters. All fasteners are made of stainless steel and covered with plastic protective caps to increase durability and safety.

Specifications

The Double-Tower Combined Play Structure - Low VVZ-VZP2-006-15-T is certified according to STN EN 1176

Age Group:	3-14 years
Product Dimensions:	6.20 x 4.20 x 2.35 m (L x W x H)
Max. Fall Height:	up to 1.50 m
Safety Surfacing Area:	9.70 x 7.80 m (according to STN EN 1176-1)
Materials:	Galvanised and powder-coated steel, HPL, LDPE, PA, polypropylene ropes, stainless steel fasteners
Weight:	414 kg
