Six-Tower Combined Play Structure - High
VVZ-VZP6-001-15-T

VVZ-VZP6-001-15-T Six-Tower Combined Play Structure - High

The six-tower combined play structure. Three towers with battlements and three low towers are connected by a rope bridge, two rope balance bridges, and two tunnels. Children can access the structure via steps, a sloped climbing wall, a rope net, and a sloped rope net. They can get back down via one of the three slides. The steel structure is weather-resistant, thanks to galvanising and a durable powder-coated finish. The HPL material used is chemically resistant, UV-resistant, colourfast, non-toxic, recyclable, and shatter-resistant. This eliminates the risk of injury to children from sharp edges or splinters. The ropes are made of polyester fibres wound around a central reinforcement, increasing strength and resistance to mechanical wear. Polyester itself is resistant to micro-organisms and weathering, dries quickly after rain, is colourfast, and offers high strength. All fasteners are made of stainless steel and covered with plastic protective caps to increase durability and safety.

Specifications

The Six-Tower Combined Play Structure - High VVZ-VZP6-001-15-T is certified according to STN EN 1176

Age Group:	3-14 years
Product Dimensions:	10.70 x 6.60 x 4.00 m (L x W x H)
Max. Fall Height:	up to 1.50 m
Safety Surfacing Area:	14.70 x 9.50 m (according to STN EN 1176-1)
Materials:	Galvanised and powder-coated steel, HPL, LDPE, PA, polypropylene ropes, corrugated pipe, stainless steel fasteners
Weight:	1185 kg
